PROFILE

Full-stack developer who builds, deploys and maintains production web systems for real businesses — booking, payments, POS, CRM and order automation — with Next.js, TypeScript, Node.js, PostgreSQL and Docker. Currently hosts and maintains four live client systems. Open to full-time remote or on-site full-stack and backend roles.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, PHP, HTML, CSS

Frameworks: Next.js, React, Node.js, Express, Electron

Databases: PostgreSQL, MySQL, Prisma ORM

DevOps: Docker, Linux VPS setup and deployment, Git

Integrations: REST APIs, payment gateways, WhatsApp Cloud API, Telegram Bot API, Puppeteer

EXPERIENCE

Back-End Developer

Oct 2026 – Present

Vertex IT Solutions · Back-end development team

Freelance Full-Stack Developer

Nov 2025 – Present

Fiverr and direct clients · Remote

- Deliver custom booking, POS, CRM, ERP and payment systems end to end for clients in Sri Lanka and abroad.
- Built a financial ERP dashboard in Next.js and React over two milestones (database design, development, cloud deployment), and a real-time fund-pool tracking system with a live balance dashboard.
- Added a secure admin module to a PHP/MySQL POS system, with bulk invoice management by date range.
- Host and maintain **four live client systems** on a self-managed Linux VPS (Docker, PostgreSQL) with automated backups; built an internal tool to manage the server.

SELECTED PROJECTS

Wingz Topup — Game Top-Up Platform & Reseller Automation

wingztopup.com

Own product · 2025 – Present · Next.js, TypeScript, PostgreSQL, Docker, Electron

- Built and run a live customer storefront for Free Fire diamond top-ups with payment gateway checkout.
- Automated reseller order processing end to end, replacing a fully manual workflow; handles batches of **1,800+ orders** with session management and OTP-based authentication.

Rem Nexus — Sports Arena Booking & Management System

remnexus.lk

Client project · 2026 · Next.js, TypeScript, PostgreSQL, Docker

- Online court booking for cricket, badminton, volleyball and futsal — live and in daily use by the client.
- Sportswear catalogue and owner dashboard in one admin panel; hosted and maintained on a self-managed VPS.

Bizupward — Multi-Tenant SaaS for Service Businesses

bizupward.com

Own product · Salon vertical complete · Next.js, TypeScript, Prisma, PostgreSQL

- Gives each business its own subdomain website with booking, POS, inventory, staff commissions and CRM.
- Role-based access, tenant data isolation, multi-branch support and automated WhatsApp notifications.

Gumas Cargo — Cargo Management & Payment System

pay.gumascargo.com

Fiverr client · Next.js, PostgreSQL · Internal system on the client's VPS; login-protected, demo on request
